

## Appendix 1.

**Table 1. Policies, Strategies, Guidance and Collected Evidence supporting the Neighbourhood Plan.**

For ease of access, all the documents listed here may be found on the DVS website; <http://www.dorevillage.co.uk/pages/dore-neighbourhood-forum>

Evidence Title	Description
Conservation of Habitats and Species Regulation 2012	The Conservation of Habitats and Species Regulations 2010 consolidate all the various amendments made to the Conservation (Natural Habitats, &c.) Regulations 1994 in respect of England and Wales
Consultation Day (exhibitions and workshops) at King Egbert School 1st October 2016	A record of the second public consultation event as part of the development of Dore Neighbourhood Plan.
CPRE Report, State of the Green Belt 2018.	Review of the Greenbelt and identification of challenges and opportunities.
Correspondence between SCC Planning Department and a planning applicant about Long Line secured through an FOI	Supporting evidence that development in areas adjacent to the Peak District National Park should take into account the character and amenity of the landscape.
DEFRA Biodiversity 2020: A strategy for England's wildlife and ecosystem services.	Produced by the Department for Environment, Food & Rural Affairs This new biodiversity strategy for England builds on the Natural Environment White Paper and provides a comprehensive picture of how the UK is implementing its international and EU commitments. It sets out the strategic direction for biodiversity policy for the next decade on land (including rivers and lakes) and at sea. It builds on the successful work that has gone before, but also seeks to deliver a real step change
Department for Education Edubase2 . (A searchable database)	Provides detailed information on schools. This is a searchable database
Domestic Gardens and Self-Reported Health: A National Population Study' by Brindley, Jorgensen and Maheswaran in the International Journal of Health Geographics	There is a growing recognition of the health benefits of the natural environment. Whilst domestic gardens account for a significant proportion of greenspace in urban areas, few studies, and no population level studies, have investigated their potential health benefits. With gardens offering immediate interaction with nature on our doorsteps, the authors hypothesise that garden size will affect general health—with smaller domestic gardens associated with poorer health.
Dore & Totley Ward Statistical Profile	Dore & Totley Ward Statistical Profile October 2017. What the 2011 Census tells us about Dore and Totley Ward
Dore Neighbourhood Plan Village Housing Areas Character Assessment	The Housing Working Group undertook a character appraisal of Dore Village's housing areas to provide a basis for developing a policy for safeguarding the character or the Village's housing areas.
Dore Village Design Statement. Dore Village Society 2005	Defines the boundaries of Dore Village and its historic 'Township' countryside context; Identifies the character of the village and the qualities valued by its residents, highlights development pressures, sets out the planning policy context and proposes supplementary planning guidance for future development.
Dwell Project University of Sheffield, Dore Village, Future Visions for a Lifetime Neighbourhood.	A three-year research project at the University of Sheffield funded by UK Research Councils (EPSRC, ESRC, and AHRC) via the Lifelong Health and Wellbeing Research Programme. The project investigated how the design of houses and neighbourhoods can facilitate mobility and well-being for current and future generations of older people. A key feature of the research project is the participation of older residents within the design and evaluation processes. Over a period of around 12 months, researchers and Dore residents worked together to co-design visions for their village as Age-friendly neighbourhood.

	At the Dore Show in September 2015, the Dore DWELL group launched their work as a series of 'Visions' – to be voted on. Interest in the DWELL stall was overwhelming, with almost 500 votes cast on the day!
Dwell project University of Sheffield. Retirement Housing in Sheffield Supply and Demand to 2034	A study carried out as part of the Research Council UK/EPSRC funded DWELL project (EP/K03717X/1), which seeks to identify ways of planning and designing housing and neighbourhoods that are suitable for an ageing population. Sheffield City Council are partners in this project, and this report reflects one strand of this joint working
Fixing Our Broken Housing Market (Feb 2017).	A housing white paper setting out the government's plans to reform the housing market and boost the supply of new homes
The Foundation for Urban Transport, Transport for New Homes	The Foundation for Urban Transport's report, "Transport for New Homes" July 2018.
Greenbelt and Housing Questionnaire Report. DNP Steering Group. May 2017	An analysis of the returned questionnaires of the survey, including mapped locations, conducted by the DNF Steering Group on attitudes in Dore to the greenbelt and housing.
Historic England Advice Note 7.	The advice supports local authorities and communities to introduce a local list in their area or make changes to an existing list.
Improving Wellbeing through Urban Nature (IWUN). A series of reports and research projects.	Improving Wellbeing through Urban Nature (IWUN) is a three year research project funded by the Natural Environment Research Council's Valuing Nature Programme. It aims to find out more about how Sheffield's natural environment can improve the health and wellbeing of the city's residents, and especially those with disproportionately high levels of poor health. See <a href="http://iwun.uk/">http://iwun.uk/</a> For a series of reports and research projects.
Long Line. Report on Consultation with Long Line Residents May-June 2016 Final and Long Line. Report on Consultation with Non-Resident Long Line Landowners	During the period May – October 2016, a consultation was undertaken with the residents of Long Line to solicit their views on matters concerning the road. The final version of the report was issued on 22 <sup>nd</sup> June 2017 and was used in support of the proposals in the Dore Neighbourhood Plan. At the request of Sheffield City Council, a subsequent consultation was undertaken with people who own land on Long Line but are non-resident, asking for responses to the same issues as those raised with the residents.
Making Space for Nature. Sir John Lawton (Sept 2010)	A review of England's Wildlife Sites and Ecological. Network.
The Monitor of Engagement with the Natural Environment (MENE) survey.	The Monitor of Engagement with the Natural Environment (MENE) survey is funded by Natural England, with support from Defra and the Forestry Commission. The survey collects information about the ways that people engage with the natural environment such as visiting the countryside, enjoying green spaces in towns and cities, watching wildlife and volunteering to help protect the natural environment
National Planning Policy Framework published 24 July 2018 and updated February 2019	The National Planning Policy Framework (NPPF) sets out the Government's planning policies for England and how these are expected to be applied and provides a framework within which local people and their accountable councils can produce their own distinctive local and neighbourhood plans which reflect the needs and priorities of their communities.
NPPF. Comparison between NPPF July 2018 and NPPF February 2019 – For Qualifying Bodies	A summary of changes between the 2018 and 2019 versions provided by Sheffield City Council.

NPIERS Final Dore NP Health Check	NPIERS Independent Consultant health check on the DNP, Consultation statement and Basic Conditions Statement.
Peak district National Park Development Management Plan 2019	This is the Development Management Policies (DMP) document for the Peak District National Park. It contains a written statement of policies for the positive management and control of development and the use of land.
Peak District National Park Local Development Framework (Oct 2011)	The Local Development Framework Core Strategy 2011 sets out the vision, objectives and spatial strategy for the national park
Peak District National Park Landscape Strategy and European Convention Action Plan (July 2009). Dark Peak.	The landscape strategy will build on an analysis of condition and forces for change in the landscape and further consultation with stakeholders. <a href="https://www.peakdistrict.gov.uk/looking-after/strategies-and-policies/landscape-strategy">https://www.peakdistrict.gov.uk/looking-after/strategies-and-policies/landscape-strategy</a>
Peak District National Park Authority Local Plan adopted March 2001.	The Local Plan (2001) is being replaced by the Local Development Framework Core Strategy. However, the Local Plan still contains a number of detailed operational policies that are still valid. <a href="https://www.peakdistrict.gov.uk/publications/local-plan-2001">https://www.peakdistrict.gov.uk/publications/local-plan-2001</a>
Peak District National Park Local Development Framework	An important consideration is the concept of spatial planning at the heart of shaping the future of our environment, and the connection that land-use plans must have to the strategies and priorities prepared by other service providers. Local priorities are set out in the Sustainable Community Strategies of the constituent authorities, sharing the area of the National Park.
Peak District National Park Map of the Natural Zones of the Peak District National Park	Map identifying the Park's natural landscapes and shows how close Dore is to the Park, more so than any other part of Sheffield other than parts of Stocksbridge.
Sheffield Average House Price Information	Published by Sheffield City Council
Sheffield Census data 2011. Sheffield Ward Profiles.	Contains data for individual Sheffield wards on; demographics, ethnicity, population estimates, health & wellbeing, housing and the labour market.
Sheffield City Center Plan. This is Sheffield, our city center plan 2018 - 2028	A vision for the city of Sheffield produced by Sheffield City Council.
Sheffield City Council, Core Strategy Policy CS71 Protecting the Green Belt.	Produced by Sheffield City Council, this is an adopted core strategy, concluding that countryside and other open land around the existing built-up areas of the city will be safeguarded by maintaining the Green Belt,
Sheffield City Region Vision.	Sheffield's two Universities and Sheffield Teaching Hospital Trust have been working during 2016 with the Sheffield City Region Combined Authority (CA), the Local Enterprise Partnership (LEP) and many public, private and community partners, to better understand the strengths and weaknesses of Sheffield City Region (SCR) and to explore ways to build on those strengths and overcome the weaknesses so that the economic and social potential of the Region can be maximised.
Sheffield City Region Combined Green Belt Review A Common Approach August 2014	To achieve the principles of Duty to Cooperate, it was decided all Local Authorities within the Sheffield City Region would share Green Belt Review experience and produce a common approach for future reviews. This document contains the methodology and outcomes.
Sheffield. City Wide Options for Growth to 2034 (Nov 2015)	Consultation for the Sheffield Plan. The Sheffield Plan will be the statutory development plan for the city which will: Guide new development (including housing, economic development, community & leisure facilities, transport infrastructure). Help protect the environment (including countryside, open space, wildlife sites). Provide the basis for

	deciding planning applications. Identify and reserve land for development. Support economic growth and provide certainty for developers
Sheffield. City Wide Options for Growth to 2034 (Nov 2015) – Public responses	The Consultation Responses received by SCC to their Citywide Options for Growth consultation in November 2014 to February 2015
Sheffield’s Green Commission. Final Report & Green City Strategy - SCC response to the Sheffield Green Commission report	Sheffield Green Commission was tasked with analysing Sheffield’s strengths, opportunities and challenges; inviting and considering evidence on a range of sustainability themes; making recommendations and plans to secure Sheffield’s environmental, social and economic sustainable future and developing an action plan. The Green City Strategy is SCC ‘s response and sets out Sheffield’s approach to be a ‘Green City’, a city which is more resilient to climate change, is taking action to reduce its impact on the climate and helping the city to make the transition towards a clean, low carbon economy.
Sheffield Greenbelt and Countryside Areas. Preliminary Landscape Character Assessment	Landscape character assessments seek to identify the features and elements of landscape areas that contribute to creating their distinct character and that make them different to neighbouring areas. This LCA seeks to identify the main character areas and types within the Sheffield Green Belt Area to provide a tool for Planning Officers
Sheffield Housing Evidence	Sheffield Housing Evidence. A report compiled by Christopher Pennell synthesising evidence on housing availability and need in Sheffield
Sheffield New Homes Delivery Plan report to cabinet and Sheffield New Homes Delivery Plan 2018 -2023 Final report	New Homes Delivery Plan (Pages 27 - 70) Report of the Executive Director, Sheffield City Council Cabinet Meeting September 2018 This New Homes Delivery Plan is the pre-cursor to presenting the new Homes for All Housing and Neighbourhood Strategy. The Government has revised National Planning Policy Framework that includes a Housing Delivery Test, to be introduced in November 2018. This test will assess delivery over the previous 3 years and, where delivery has fallen below 95% of the local planning authority’s housing requirement over that period, the authority should prepare an action plan in line with national planning guidance. The action plan should assess the causes of under-delivery and identify actions to increase delivery in future years. Our provisional assessment is that delivery in Sheffield over the period 2015-18 is likely to be 85-88% of the housing requirement. The Sheffield Housing Delivery Plan is therefore the City Council’s response to the Government’s imminent requirement to produce an action plan.
Sheffield, The Outdoor City – Economic Strategy	The economic value of outdoor recreation is only truly starting to be recognised, and Sheffield is at the forefront of taking a new approach to understanding how to capture these benefits. The draft strategy sets out the priorities for the city for the next three years with the vision “Sheffield, The Outdoor City, will be internationally renowned for its outdoor offer; its quality places and outdoor people”
Sheffield. State of Sheffield report 2017.	The State of Sheffield report provides an overview of the city, describing how things are, how things are changing and how Sheffield compares to other similar places
Sheffield State of Nature	2018, Sheffield State of Nature report produced by the Sheffield Wildlife Trust and local universities
Sheffield and Rotherham Strategic Housing Land Availability Assessment Interim Position Paper 2017	The purpose of this 2017 Interim Position Paper is to provide an update, since the last Strategic Housing Land Availability Assessment (SHLAA) report (November 2015) and Interim Position Paper 2016, on the current 5-year housing requirement. This takes into account housing completions in 2016/17.
Sheffield and Rotherham Strategic Housing Land Availability Assessment Interim Position Paper 2017	This takes into account housing completions in 2016/17. Monitoring is against the housing requirement for the period 2004 -2026 set by the current adopted Sheffield Local Plan1 Core Strategy (2009), and takes account of the proposed national standard approach to assessing housing need and is informed by “The Call for Sites 2014 consultation” which took place from 14 July to 22 August 2014.

Sheffield Strategic Housing Market Assessment. 2013	Sheffield Strategic Housing Market Assessment (SHMA) 2013 and subsequent updates. About the supply and demand for different housing in the city. Estimates the number of new homes that will be needed over the next 5 years Provides important evidence about the housing market that can be used in the development of housing and planning policies to help guide future housing delivery
Sheffield & Rotherham Joint Strategic Housing Market Assessment 2015	Housing supply and demand
Sheffield Transport Strategy June 2018	Transport Vision for the city of Sheffield
Spatial Planning for Health	Spatial Planning for Health; An evidence resource for planning and designing healthier places This review provides public health planners and local communities with evidence informed principles for designing healthy places
Sheffield Unitary Development Plan and Core Strategies	Sheffield Unitary Development Plan adopted in 1998. A city-wide development plan.
South West Sheffield Housing Market Profile	This profile contains information about the population, housing stock, market performance and demand for housing in the South West HMA. Produced by Sheffield City Council, the Housing Market Area profiles are a series of reports and summaries that provide information on the housing markets and social characteristics of the 13 Housing Markets Areas (HMAs) in Sheffield. Sheffield has a wide range of housing market characteristics which vary between different neighbourhoods and communities. To reflect this, the Strategic Housing Market Assessment in 2013 split the city into 13 Housing Market Areas based on criteria such as house prices, types of housing and the types of communities living there. Each of the HMAs represents a fairly distinct and unique housing market within Sheffield. The profiles are a narrative of the characteristics, neighbourhoods and housing in each of the HMAs. They identify the types and range of homes that are needed in the areas to meet current and future demand for housing in the city.
South Yorkshire Sites and Monuments record. (Searchable Database)	The Sites and Monuments Record searchable database and maps giving details of known archaeological sites, monuments and finds in the county of South Yorkshire. Specific to the Dore neighbourhood Plan are HER record Numbers: 01726/01, 01726/02, 03727/01, and 01725/01. <a href="https://www.heritagegateway.org.uk/gateway/chr/herdetail.aspx?crit=&amp;ctid=92&amp;id=4734">https://www.heritagegateway.org.uk/gateway/chr/herdetail.aspx?crit=&amp;ctid=92&amp;id=4734</a>
The UK national Ecosystem assessment and The UK national Ecosystem assessment follow-on.	The UK National Ecosystem Assessment provides an analysis of the UK's natural environment in terms of the benefits it provides to society and continuing economic prosperity. Its findings indicate that ecosystems and ecosystem services, and the ways people benefit from them, have changed markedly in the past 60 years, driven by changes in society. It also cites that the UK's ecosystems are delivering some services well, but others are still in long-term decline. The UK National Ecosystem Assessment follow on was published in 2014. It provided further analysis of the cultural and economic value of nature and developed a range of tools and methods to assist decision-makers wishing to apply an ecosystems approach.
The Wildlife Trusts. Homes for people and wildlife - How to build housing in a nature-friendly way -	This document sets out The Wildlife Trusts' vision for new homes that are inspiring and beautiful places to live, and where people and nature thrive together. To achieve this, we need a new approach that puts the natural environment at the heart of development and planning needs to be pursued. This document contains a series of practical proposals that achieve this end.
